

Be Prepared!

A fire can happen day or night,  
It can cause quite a fright.

It's never fun to be scared.  
You always need to be prepared!

Listen up and learn all you can,  
To be safe you need a fire escape plan.

First you need smoke alarms that go beep, beep, beep.  
They'll let you know there's a fire even when you're asleep.

From each room you need to know 2 ways out,  
An outside meeting place! That's what it's all about.

An emergency is no fun,  
Get out FIRST, and then dial 911.

Practice, practice with your whole family.  
It is important for EVERYONE  
to be safe as can be.
